Alejandro Ziegler Tango Quartet

5th NORTH AMERICAN TOUR - 2016

Since 2008 "Alejandro Ziegler Tango Quartet" has developed its own unique style of tango music reflecting both innovation and tradition.

Inspired by the golden age tango orchestras, the ensemble managed to reach an evolutionary synthesis of traditional tango and contemporary feeling.

On stage the communication between the four musicians is allowing, expressive, playful and tight. They flirt with a chamber musical expression without ever leaving the unpredictable spontaneity within popular music and improvisation. Various grooves and different ornaments reveal the members' personal playing styles.

Alejandro Ziegler's own compositions come alive through surprising arrangements as well as intimate interplay. With their special sound, a unique mix of tango, improvisation, and romanticism, they have gained territory all over the world.

Their focused performances are a complete acoustic, dynamic, and musically masterpiece one should never miss.
